Hey There! I'm Banner, bachelor's in systems Engineering with the following technical skills: Java 8+, ABAP, RPA, ReactJS, TypeScript, Android, Spring Boot (Imperative & Reactive or functional programming) and intermediate English knowledge. Adept to new technological trends in software development.

SKILLS

- Effective adaptation to any development architecture and technology.
- Ability to group effectively with the team and work environment.
- Design thinking application for solution proposals.
- Development of REST / SOAP services with SpringBoot Java 8+.
- ReactJS and TypeScript development.
- Knowledge of SOLID principles, microservices, Richardson maturity level.
- Management and development of solutions with RPA (Automation Anywhere)

- Fast and efficient development of solutions.
- Self-taught learning.
- Interfaces design and data modeling.
- Development with RUP and Agile Development (Scrum) methodologies.
- Relational and non-relational database management (Oracle, IBM DB2, PostgreSQL, SQL Server, MongoDB, CosmosDB)
- TDD pattern application.
- Intermediate English proficiency with communication, writing and reading skills.

WORK EXPERIENCE

FEBRUARY 2020 – CURRENT

SOFTWARE APPLICATION JAVA DEVELOPER, EVERIS PERÚ

-Technical specialist in the Home Banking project of Banco de Crédito del Perú.
-Team (7+) leader for the development and delivery of banking functionalities with expertise in reactive Java Backend development using Spring Boot and RxJava 2, swagger / openapi documentation, distributed cache, SQL / NoSQL database, microservices and TDD application for unit testing with JUnit5 in addition to the Agile Scrum framework.

APRIL 2019 – FEBRUARY 2020

SOFTWARE APPLICATION JAVA DEVELOPER, IBM PERÚ

-Development and maintenance of Web applications with Java, CSS3, JS, Bootstrap 3, MyBatis.
-Design and development of graphic interfaces.
-Modification of existing applications adding value to the operations platform as requested by the user.
-Management of the IBM DB2 database with DDL and DML queries, in addition to functions and procedures with T-SQL.
-Development and automation of information gathering processes with Automation Anywhere RPA.
-Application of SCRUM for the development and delivery of applications and comprehensive services.

MAY 2017 – JUNE 2017
SOFTWARE APPLICATION JAVA DEVELOPER, IEP. SACO OLIVEROS

-Development and modeling of Java Web solutions with Java EE.
-Development of the order management platform for educational resources.
- MySQL database management and DDL and DML queries.
-Use of tools such as NetBeans (IDE) and Navicat for handling queries.

MAY 2016 – NOVEMBER 2016
ABAP DEVELOPER, EBISU CONSULTING

-Development and customization of information reports.
-Support for ERP SAP information systems.
-Development of accounting book reports and Kardex maintenance.
-Development of interfaces solution and Core processes.
-Use of development transactions SE38, SE37, SE11, SE16, SE80, etc.

EDUCATION

MAY 2016 – DECEMBER 2019
BACHELOR'S IN SYSTEMS ENGINEERING, UNIVERSIDAD TECNOLÓGICA DEL PERÚ

-Bachelor of Systems Engineering. Specialized in software development of solutions and information systems with the Java language. I use tools like IntelliJ IDE, Navicat, MongoDB Compass, Slack, MySQL WorkBench, Git, GitHub, Trello, LucidChart, Spring Tool Suite, NetBeans, Atom, Photoshop, Illustrator, AutoCAD, Inventor, Android Studio, Wamp, Xampp, Tomcat, GlassFish with the use of Java 8+, Javascript and PHP 7 programming languages and some other strange pokemons.

MARCH 2001 – DECEMBER 2015
KINDER, MIDDLE SCHOOL AND HIGH SCHOOL, COLEGIO LOMAS DE SANTA MARÍA

Student of the private school Lomas de Santa María in Chaclacayo – Lima, Perú.

JUNE 2014 – PRESENT
SPECIALIZATION COURSES

Development:
- Master Microservices with Spring Boot and Spring Cloud.
- Java Full Stack with Spring Boot and ReactJS.
- Spring Framework Workshop in Universidad Nacional de Ingeniería.
- Java Web Applications Course in Universidad Nacional de Ingeniería.
- Java Basics in Universidad Nacional de Ingeniería.
- Java Desktop Applications Course Universidad Nacional de Ingeniería.
- PHP Web Development Course in Universidad Nacional de Ingeniería.
- PHP DAO-OOP Course in Universidad Nacional de Ingeniería.
- Advanced PHP Course in Universidad Nacional de Ingeniería.
- SAP ABAP Development in Universidad Nacional de Ingeniería.
- Ethical Hacking Basics Course in Universidad Nacional de Ingeniería.
- Advance Ethical Hacking Course in Universidad Nacional de Ingeniería.

Database:
- MongoDB Basics en Mongo University M001 y M103.
- Oracle Database SQL Basics in Universidad Nacional de Ingeniería.
- Oracle Database Administration in Universidad Nacional de Ingeniería.

Miscellaneous:
- Enterprise Design Thinking Practitioner - IBM.
- Docker Essentials: A Developer Introduction - IBM.
- Marketing digital grupo Actívate de Google (40 Hours)
- Analítica Web grupo Actívate de Google (40 Hours)

Seminars, conferences, workshops, panels and forums:
- ABAP Conference, Advanced Business Aplication Programming en la   Universidad Nacional de Ingeniería.
- Conferencia de CJava en la Universidad Nacional de Ingeniería.
- Conferencia de desarrollo de Marca Persona en la Universidad Nacional de Ingeniería.
- Conferencia de desarrollo y tendencias de desarrollo Android, Kotlin y Firebase con IoT Droids4Droids en la Universidad Peruana de Ciencias Aplicadas.
- Conferencia Java Day Perú 2018

Ofimática:
- Excel, Word, PowerPoint, Illustrator and Photoshop by Educare Group.

CURIOSITIES

Hyperactive character who enjoys quiet moments in reading classic adventure books or novels, sports lover such as football, basketball and swimming, free time artist who likes to sing and play guitar or piano. Listener of opportunities and different thoughts that show problems to which to propose possible solutions.
